Custom Index Divider Order Form

Our standard title index divider tabs are .15 per tab.

The cost of custom printed tabs is \$35.00 per order plus the total number of tabs ordered multiplied by the unit price (see table at right). You can have up to four different titles in this printing. You may order any quantity of any title — they don't have to be the same quantity. We will add them together to get to the total number for pricing purposes. Pricing is based upon the total quantity of the order.
